About Me

Junior Penetration Tester and B.Tech CSE student specializing in Web, API, and Android Security. Currently performing VAPT at ASD Cybersecurity and founder of Vanix, a digital technology startup focused on modern web, AI, and digital solutions. Also founder of the HackWithKunal YouTube channel, where I simplify complex ethical hacking concepts for a growing community. Dedicated to identifying vulnerabilities, building secure solutions, and creating impactful digital products.

TECHNICAL SKILLS

- Vulnerability Assessment (VAPT)
- Web & API Security Testing
- Network Pentesting
- Kali Linux & Parrot OS
- Android Reverse Engineering
- Ethical Hacking (CEH)
- Basics Android Testing
- Nmap, Wireshark & Nessus
- MobSF, Frida & Genymotion
- Automation in Testing

DIGITAL & CONTENT SKILLS

- AI Content & Prompt Engineering
- YouTube SEO & Analytics
- Social Media Management
- Digital Branding & Logo Design
